Collège Boréal
A FRENCH LANGUAGE COLLEGE LIKE NO OTHER IN CANADA.

Established in 1995, Collège Boréal is a French language post-secondary training and learning institution dedicated to the development and growth of communities throughout Ontario.

Strengthened by its diversity, Collège Boréal is a leader from north to south to central-southwest and east, helping its clients stand out as bilingual graduates, find employment, or get settled and integrated in Ontario.

Collège Boréal was the first post-secondary institution to be designated under the French Language Services Act (FLSA). Today, it continues to be the only French-language college with a presence in the North, East and Central-Southwest (CSW) of the province.

Collège Boréal serves francophone communities from Hearst to Ottawa to Toronto to Windsor. Each of these communities has unique characteristics that directly impact on the delivery of employability and immigration programs, courses, and services.

The differences between the communities in the North, where the population is relatively homogeneous with little immigration, and those in the Central-Southwest, where there is a heterogeneous population made up of newcomers, mean that the College must regularly adapt the delivery of its programs and services to meet the needs of its diverse clientele.

At the heart of these communities, Collège Boréal’s mandate is twofold: to be both a post-secondary educational institution and a vital community development organization. It is a hub of innovative education, culture, and community. Since opening its doors in 1995, approximately 180,000 clients have benefited from Boréal’s expertise in:

> Post-secondary education
> Apprenticeship programs (trades)
> Corporate training
> Continuing education
> Academic upgrading (literacy training)
> Immigration services
> Employment services
> Applied research
> International projects

Collège Boréal’s goal is to produce a highly skilled bilingual workforce that is involved in the communities and that contributes to the economic, social, and cultural vitality of the province and the country.
